Finance Limited

Chloe Chiu
Vice President –
Public Relations
Financial PR (HK) Limited

We are proud to share the success of our recent seminar **"ESG Practices of Listed Companies: Case Studies on Corporate Governance and Climate Disclosures."** Due to overwhelming interest, nearly 70 participants from various listed companies attended this highly informative event.

The seminar covered engaging discussions on the latest updates in climate disclosures, corporate governance, and financing/wealth management strategies for corporations. We have provided a valuable insights and best practices on integrating ESG considerations into business operations and reporting.

We are pleased that the event provided such an empowering learning experience for the participants. In line with our sustainability commitments, we have purchased and retired carbon credits generated from a conservation programme in Brazil that protects the Amazon forest. This helps us offset the greenhouse gas emissions associated with this seminar, including emissions from participant commutes and electricity consumption in the seminar venue.
