Highlights

ESG Seminar 2024

Date: 25 September 2024
(Wednesday)

Time: 16:00 - 17:30

We are proud to announce the successful conclusion of our recent seminar, co-organised with HKiNEDA, titled “Use of Carbon Credits to Offset Greenhouse Gas Emissions by Corporates”. With over 60 participants from various listed companies and professional firms, this event highlighted the overwhelming interests in the subject of decarbonisation.

The 1.5-hour session featured insightful discussions led by expert speakers from the sustainability field. Bill Tsang, Roma's Head of ESG shared the background story and practical steps to purchase and retire carbon credits as part of our decarbonisation strategy. Other guest speakers from Fujifilm and Cathay Pacific explored the effective utilisation of carbon credits and sustainable aviation fuel (SAF) by corporates to progress towards their sustainability goals.

A carbon neutral event: The carbon footprint associated with this event, encompassing emissions from attendee's commuting and venue electricity consumption, etc., has been voluntarily offset by purchasing and retiring carbon credits from clean energy projects.

Bill Tsang
Head of ESG
Roma Green Finance Limited

Katherine Lau
Internal Audit & Sustainability
General Manager
FUJIFILM Business Innovation
Hong Kong Limited

Nic Fong
Corporate Sustainable
Aviation Fuel Programme
Manager

News and Activity

Mooncake Donation

To celebrate the Mid-Autumn Festival, Roma spread joy by donating 10 boxes of mooncakes to Food Angel, a programme dedicated to food rescue and assistance, for distribution among the less privileged while resonating with their ethos of “Waste Not, Hunger Not, With Love.”

This gesture reflects our commitments to community involvement, fostering a culture of positivity and support within our neighbourhoods. By actively participating in initiatives like this, we strive to make a meaningful impact and disseminate happiness during this special festive occasion.
